

iMAGo

Caring for your image

iMAGO

We can really talk about a “revolution” when it comes to the IMAGO ultrasound scanner.

Compact, portable, ultra-light and extremely robust, the IMAGO is the ideal scanner for all veterinary applications – bovine, equine, swine and small ruminants.

Featuring the very latest digital technology IMAGO can be used with a wide range of multi-frequency transducers (Linear rectal – Linear Abdominal – Convex – Sector).

Thanks to a very high image resolution, the operator can make extremely fast and reliable diagnosis in all circumstances.

The interchangeable lithium ion battery allows you to work wherever & whenever you want, with hours of continuous use, and the newly designed carry straps offer greater comfort and freedom of movement.

Using the digital conception (processor + FPGA) allows the IMAGO hardware & software to be upgraded in the future, this means you are always using the latest technology.

IMAGO is equipped with a very durable touch screen. The clear and user friendly menu with comprehensive features is easy to navigate and simple to use.

The magnesium alloy body offers practical performance, is weatherproof and designed for the tough conditions which operators face every day.

TECHNICAL SPECIFICATIONS

1. Specification

Weight: 1,8 kg
Screen: 6,5'
Touchscreen
Interchangeable battery
Large autonomy
Intuitive user interface
Magnesium body

2. Imaging mode

B, B+B
B+M mode
Zoom
Focus
Cineloop
Text & Annotation
Protocol
Measurements and tables
Images and clips storage
DICOM

3. Peripherals

Video composite
USB
DC output
Bluetooth transmission

4. Clinical Applications

General, Gynaecology, Obstetrics, Abdominal
